Built Steelworks Strong.

FAST BLAST Freezer Doors

SPECIFICATIONS:

PROBLEM: Harsh environments and frigid temperatures are brutal to most conventional roll-up doors. These products develop ice buildup, which are a nightmare to manage and repair.

SOLUTION: SW Steelworks FAST BLAST Freezer Door can handle the extreme pressure and temperatures of a blast freezer.

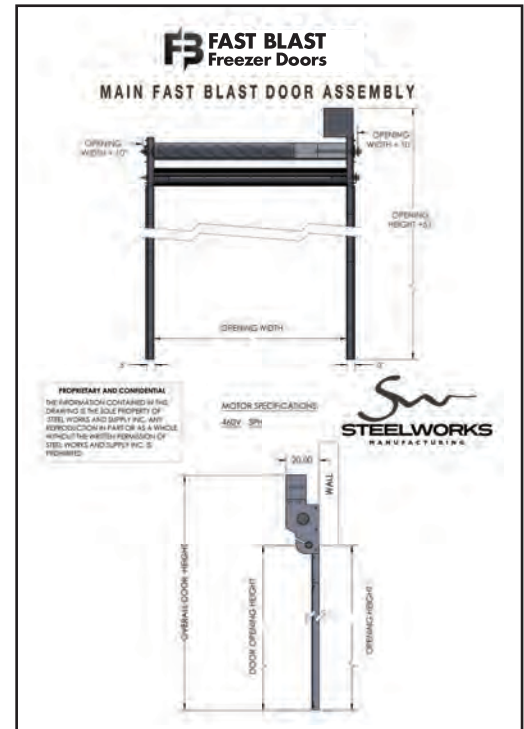

Our Structural Steel Frame Design provides reliable operation with only **FIVE** moving parts, while utilizing a flexible, forgiving, yet still rigid, curtain.

Our **FAST BLAST** door provides you with a reliable, simple fix to the most critical and profitable part of your business, Blast Freezing.
